DETAILED ACTION

This Office action responds to the amendments in papers no. 15 and 17 filed on 1/24/2003 and 1/27/2003, respectively.

Acknowledgment

1. The amendments in papers no. 15 and 16, filed on 1/24/2003 and 1/27/2003, respectively, in response to the Office action in paper no. 10, mailed on 8/26/2002, has been entered. The present Office action is made with all the suggested amendments being fully considered. Accordingly, pending in this Office action are claims 1-20 and 22-57.

Election/Restrictions

2. Newly submitted claims 55 and 56 are directed to an invention that is independent or distinct from the invention originally claimed for the reasons set forth in the restriction requirement in paper no. 8, mailed on 5/29/2002.

3. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 55 and 56 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Drawings

4. The proposed drawing correction and/or the proposed substitute sheets of drawings in paper no. 16, filed on 1/27/2003, have been approved. A proper drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 28-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. Lines 2 and 3 of claim 28 recite the limitation "said first and second access transistors". There is insufficient antecedent basis for this limitation in the claim.

8. Line 2 of claim 29 recites the limitation "said first access transistor". There is insufficient antecedent basis for this limitation in the claim.

9. Line 2 of claim 30 recites the limitation "said first and second access transistors". There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

10. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2814

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

11. Claims 47-54 and 57 are rejected under 35 U.S.C. 102(e) as being anticipated by Kozicki (US 2002/0168820).

12. Regarding claim 47, Kozicki shows (see, e.g., figs. 21-24 and 29) all aspects of the instant invention including a method of fabricating a memory device, comprising:

- forming a first memory element **2904** comprising a first chalcogenide material layer and a first metal-containing layer
- forming a second memory element **2902** comprising a second chalcogenide material and a second metal-containing layer
- forming a first electrode **2938** in electrical communication with one side of the first memory element
- forming a second electrode **2930** in electrical communication with one side of the second memory element
- forming a common electrode **2920** in electrical communication with a second side of each of the memory elements

13. Regarding claim 48, Kozicki shows that the metal-containing layers of the first and second memory elements may each contain silver (see, e.g., [0040]).

14. Regarding claim 49, Kozicki shows that the metal-containing layers may be silver layers (see, e.g., [0043]).

15. Regarding claim 50, Kozicki shows that the common electrode may be an anode electrode having the metal-containing layers of the first and second memory elements of opposite sides thereof (see, e.g., [0094], [0102], [0107]).

16. Regarding claim 51, Kozicki shows that the metal-containing layers may be silver layers (see, e.g., [0043]).

17. Regarding claims 52 and 53, Kozicki shows that the method may further comprise forming an access device **610** for each of the memory elements (see, e.g., fig.6, [0107]).

18. Regarding claim 54, Kozicki shows that the method may further includes forming an access circuitry for separately accessing the memory elements (see, e.g., fig. 6, [0107]).

19. Regarding claim 57, Kozicki shows (see, e.g., figs. 21-24 and 29) all aspects of the instant invention a method of forming a multi-cell programmable device, the method comprising the steps:

- forming a first electrode **2938** on a surface of a substrate (see, e.g., [0035])
- forming a first ion conductor portion overlying the first electrode **2938**
- forming a second electrode **2920** overlying the first ion conductor portion
- forming a second ion conductor portion overlying the second electrode **2920**
- forming a third electrode **2930** overlying the second ion conductor portion

Allowable Subject Matter

20. Claims 17-20 and 22-27 are allowed.

21. Claims 28-30 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action, set forth in this Office action.

Conclusion

22. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

23. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
